

Smilin' Trees Disarmament Farm

Apologies for the late notice. Bath Iron Works plans to christen the USS John Basilone, an Aegis Missile Destroyer, tomorrow June 18 at 10:30am. George and I plan to assemble at the BIW parking lot across from the post office on Washington Street from 9 to 11 am.

We must stop building these Aegis destroyers. We need to look at the US criminality (so much in evidence in our world today) and resist the pretense of a "Christening" of a weapon of mass destruction. The building of these warships increases an out of control arms race at the expense of so many other real needs in our community and our world.

The military industrial complex is making a killing. This is a Crime against Humanity. This is a Crime against Peace. Disarmament is our only hope to say No! to war.

FMI: Smilin' Trees Disarmament Farm: 763-4062 or 230-4885 (cell).
