

Veterans For Peace Climate Crisis and Militarism Project (CCMP) Information

Email: climate@veteransforpeace.org

Website: <https://www.veteransforpeace.org/take-action/climatecrisis>

Mission Statement for CCMP

To educate and mobilize the public, including veterans, social justice activists, the media, and government officials about the impacts of war and militarism contributing to the global climate crisis.

Our work focuses on: impacts of climate change and militarism on people of color and the poor; the “carbon footprint” of the US military; wars for oil and other resources; and the enormous financial costs of the US military and its wars, which could be used instead to address the climate emergency.

Take Action

Sign the petition to Climate Envoy John Kerry - include militarism in climate talks:
